WE take great pleasure in offering to our customers a revised Illustrated Trade List of Foreign and Domestic Stationery. It will be found invaluable in ordering goods, the different varieties of an article being all together, and each separate variety indexed, so that any article of stationery, however insignificant, can easily be found by referring to the index.

Special attention is called to the most complete illustrated list of inkstands ever published. Each inkstand bears its proper number or description, and price by the dozen. Merchants are enabled by this list to order a stock as well as if they were buying from samples.

Some of the lists herein are not priced, but the articles contained in them will always be sold at the lowest rates; and from manufacturers' lists the best discount will be given.

We have lately commenced the manufacture of Blank Books for stock and to order. Our great facilities enable us to manufacture these books of a very superior style and quality, at the lowest rates. We make up to order every thing in the way of Check, Note, and Draft Books, Bill Heads, Letter and Note Headings, Circulars, etc., etc., printed or engraved, in the very best manner.

We also offer the celebrated Steel Pens of Harrison, Bradford & Co. These pens are of a finer quality, more durable, and cheaper, than any pen in market. Special attention is called to the following grades, as being better suited for business purposes than any pen ever before manufactured: the "505" Pen, and the "anti-corrosive" Pen.

Buyers, both of Books and Stationery, are specially invited to call at our new, spacious, and well-lighted warehouse on Broadway, and examine our varied and well-selected stock of books, stationery, and fancy goods. It is our intention that wholesale buyers of books and stationery shall be enabled to buy all their goods at one place.

We buy for cash, in large quantities, and at the lowest rates, and sell for cash, at manufacturers' rates and discounts.

The importance of a good Ink for ordinary rapid writing, general correspondence, the usual work of literary men, and for school purposes, can hardly be over-estimated. And it is evident that an Ink designed for these special uses should possess special qualities, viz.: *Freedom of Flowing, Distinctness of Color, and the absence of all Corrosive Substances.*

GENERAL ORDERS, No. 36.

HEADQUARTERS OF THE ARMY,

ADJUTANT-GENERAL'S OFFICE, WASHINGTON, March 31, 1870. }

The use of violet and all the various colored inks is hereafter prohibited in official correspondence and records throughout the army, except carmine or red ink, as generally used in endorsement, ruling, or in record-books.

By command of GENERAL SHERMAN.

E. D. TOWNSEND, *Adjutant-General.*

OFFICIAL:

Assistant Adjutant-General.

The above order was issued because fancy colored inks, violets in particular, rot the paper, and soon become illegible.

NEW STYLES OF

WRITING PAPERS,

FOR

AUTHORS, EDITORS, AND CLERGYMEN.

We beg leave to call attention to our new styles of Writing Papers, especially designed for the use of *Contributors, Authors, Editors, and Clergymen*. Heretofore it has been necessary for all persons writing for the press to prepare their own paper, or use some form of writing paper in the market which at best is very imperfectly adapted to the purpose.

MABIE'S PATENT PEN AND PENCIL CASES.

DESCRIPTION.

Figures 1 and 2 represent the mechanism of the Pen and Pencil—Fig. 1 is the Pen, consisting of three hollow tubes; the outer is the case, and has a straight slot for extending the same, pivoted to Tube A. The Tubes A and B rotate on pivot C, which is attached to the usual shaped point, and forms the centre of two worm-shaped slots, for sliding the Pencil out and in. Fig. 2 simply shows the tubes A and B separated, so as to more clearly represent the slots.

E. L. FARGO'S

Perpetually Moist Letter Copying Book.

D. APPLETON & CO., Sole Agents.

UNDER M. W. BROWN'S PATENT, DATED JAN. 27 1868.

This book is designed to take the place of the ordinary Copying Book, doing away entirely with the Water-bowl and Brush. It is always moistened, and ready to take any number of copies at once.

The advantage of this invention, to Express Companies, Bankers, and Business Men generally, is very great, and, if once properly tested, would entirely supersede the old style.

The book is in extensive use in this city, and has attained a large sale throughout the United States.

We manufacture a new Carbon Fluid, which is specially adapted to the use of this book, and with which the most perfect copies can be taken.

PATENT INITIAL STAMPING PRESS.

It has now become a necessity for every Retail Stationer to Stamp his own Note Paper and Envelopes.

To meet this necessity we have manufactured a Press for Initial Stamping, and supply dies and colors.

The above illustration of the Press will enable one to form a good idea of it, and, being very simple in construction, a person is able to understand its movements, and acquire the art of Stamping with very little study.

NEW SCHOOL AND COLLEGE TEXT-BOOKS,

PUBLISHED BY

D. APPLETON & CO., 549 & 551 Broadway, N. Y.

I.

CORNELL'S PHYSICAL GEOGRAPHY.

The most interesting and instructive work on this subject ever presented for the use of the schools of this country; lavishly illustrated, and embracing all late discoveries and the most recent views of scientific writers. Containing Nineteen Pages of Maps and copious Map Questions. The Physical Features of the United States receive particular attention. A fine Physical Map of the United States and a Map of Alaska, on a comparatively large scale, are given. Large 4to, 104 pages. Price, \$1.60.

II.

LOCKYER'S ELEMENTS OF ASTRONOMY.

Accompanied with numerous Illustrations, and Arago's Celestial Charts of the Northern and Southern Hemisphere. By J. NORMAN LOCKYER, Fellow of the Royal Astronomical Society; Editor of "Nature," etc. *American Edition.* 12mo, 312 pages. Price, \$1.75.

The author of this volume is one of the greatest living astronomers, and the pioneer in many important researches, which he has embodied in his book. The fine Celestial Charts of Arago answer all the purposes of a costly Atlas of the Heavens. This is the only text-book having this advantage. Some of the illustrations are from photographs and drawings by De La Rue, Guillemin, and others equally distinguished. The work has been revised and adapted to the schools of the United States, by an eminent American teacher, and is offered by the publishers as superior to any thing of the kind heretofore published.

III.

FIRST BOOK OF BOTANY:

Designed to cultivate the Observing Powers of Children. By ELIZA A. YOUNG. Price, \$1.

This little book has a twofold claim upon those concerned in the work of education:

1st. It introduces the beginner to the study of Botany in the only way it can be properly done—by the direct observation of vegetable forms.

2d. It is designed to keep the mind in direct intercourse with the objects and order of Nature, and to train the observing powers and the mental operations they involve in a systematic way.

There are no lessons to "commit and recite." The pupil commences with actual specimens of plants which every one is able to collect, and learns to look with his own eyes and think with his own mind.

Children can begin to study plants successfully by this method as soon as they can write, and any teacher, without previous knowledge of the subject, can conduct them through the exercises without difficulty.

Every true teacher will hail this new work with delight.

IV.

HARKNESS'S EDITION OF

CÆSAR'S COMMENTARIES ON THE GALLIC WAR.

PRICE, \$1.50.

This edition has been carefully adapted to the special needs of the student who has just completed the Latin Reader, and it aims to introduce him to an appreciative study of a standard literary work. The notes furnish such collateral information as will enable the learner to understand and appreciate the stirring events recorded in the Commentaries, and such special aid as will help him to surmount real and untried difficulties of construction and idiom. The volume also contains plans of battles, a copious dictionary, a map of Gaul, and a brief life of Cæsar.

V.

A TREATISE ON LEVELLING, TOPOGRAPHY, AND HIGHER SURVEYING.

By W. M. GILLESPIE, LL. D., Civil Engineer. Edited by Cady Staley, A. M., C. E., Professor of Civil Engineering in Union College. One vol., 8vo. Price, \$2.50.

CORNELL'S GEOGRAPHICAL SERIES,

IN THREE BOOKS.

I. PRIMARY GEOGRAPHY. New edition. Small 4to, 96 pages. 17 Maps. Beautifully illustrated. Price, 90 cents.

II. { INTERMEDIATE GEOGRAPHY. New edition. Large 4to, 100 pages. 19 elegant Maps and Map-Drawing. Price, \$1.50.
GRAMMAR-SCHOOL GEOGRAPHY. New edition. Large 4to, 124 pages. 31 Maps. Same grade as Intermediate, but much fuller. Price, \$1.75.

III. PHYSICAL GEOGRAPHY. Described above.

We would respectfully call the attention of Teachers and Boards of Education to the fact that, with the publication of our New Physical Geography, we are enabled to offer the most thorough and complete series of Geographies, comprised in three books, to be found in the American market. Also, that we have two different books to select from for the second of the series—one being fuller in details than the other, but no higher in grade—thus adapting the series to the wants of any course of study. Send for Special Circular, giving full particulars.

D. APPLETON & CO. ALSO PUBLISH:

CORNELL'S OUTLINE MAPS. Neat, durable, and cheap.

APPLETON'S ARITHMETICS. New, practical, up to the times, and increasing rapidly in circulation.

QUACKENBOS'S GRAMMARS, COMPOSITION, and RHETORIC. The Rhetoric is used in 127 out of the 148 Academies teaching that branch in the State of New York.

QUACKENBOS'S HISTORIES. Brought down to the present Administration. Very entertaining in style, beautifully illustrated with Maps and Engravings, and free from political and religious prejudices.

QUACKENBOS'S NATURAL PHILOSOPHY. Just revised, and brought up to date. THE BOOK ON Physical Science.

YOUNG'S CHEMISTRY. Up to date. Not encumbered by technicalities, yet scientific.

HUXLEY AND YOUNG'S PHYSIOLOGY. "By far the best work of the kind I have seen"—Dr. Austin Flint, Jr.

HARKNESS'S LATIN AND GREEK SERIES. Used in nearly all our leading Classical Institutions.

HADLEY'S GREEK GRAMMAR. All leading Colleges use it.

FRENCH, GERMAN, SPANISH, ITALIAN, HEBREW, and SYRIAC GRAMMARS, READERS, PHRASE-BOOKS, and DICTIONARIES. (See Catalogue.)

Teachers and School-officers are respectfully invited to address us on matters connected with the introduction and use of our publications. Immediate attention will be given to any letters or orders with which we are favored, and the most satisfactory terms will be made for introduction. A DESCRIPTIVE CATALOGUE, embracing all our reliable and popular Text-books, with prices, will be mailed, postage prepaid, on application. Lists of Schools, of Teachers and School-officers, Circulars, etc., are requested in return. Persons ordering are requested to be particular to give their post-office address in full.

Those visiting New York are cordially invited to call and examine our extensive assortment of Text-books.

Specimen copies of any of the above works will be mailed to Teachers and School-officers, for examination with a view to introduction, at reduced rates.

APPLETONS' JOURNAL,

A WEEKLY MAGAZINE

OF

POPULAR LITERATURE.

THE ATTENTION OF ALL LOVERS OF CHOICE LITERATURE IS SOLICITED TO APPLETONS' JOURNAL, WHICH GIVES, IN A WEEKLY FORM, THE BEST AND MOST ATTRACTIVE FEATURES OF THE MONTHLY MAGAZINE. ITS WEEKLY ISSUE BRINGS IT A MORE FREQUENT VISITOR TO THE FAMILY THAN IS THE CASE WITH A MONTHLY PERIODICAL, WHILE A MUCH GREATER AGGREGATE AND A LARGER VARIETY OF PAPERS ARE FURNISHED THAN ARE GIVEN IN ANY OF THE REGULAR MONTHLIES. IN ITS CHARACTER AND METHOD OF PUBLICATION, APPLETONS' JOURNAL IS QUITE UNLIKE ANY OTHER PUBLICATION, AND THE PUBLISHERS INVITE FOR IT THE SPECIAL SCRUTINY OF MAGAZINE READERS. FOR THOSE WHO PREFER IT, THE JOURNAL IS PUT UP IN MONTHLY PARTS, AND, IN THIS FORM, ITS MERITS, AS COMPARED WITH OTHER PERIODICALS, BECOME CONSPICUOUSLY OBVIOUS.

APPLETONS' JOURNAL consists of thirty-two pages, quarto, each number attractively illustrated. Its contents consist of Illustrated Papers upon the Various Subjects that pertain to the Pursuits and Recreations of the People, whether of Town or Country; Pictorial Descriptions of Famous Localities; Biographical Sketches, with Portraits, of Celebrities in Art, Literature, and Science; Illustrated Travels and Sketches of Adventure; Essays upon Literary and Social Topics; Entertaining Papers on the many subjects that enlist the sympathy or pique the curiosity of intelligent minds; and Choice Fiction, in the form of Serial Novels and Short Stories.

Now publishing, in APPLETONS' JOURNAL, a series of Illustrated Papers of great interest to every person in the country, consisting of Views, with accompanying letter-press descriptions, of the most striking Landscapes and Places in America. They are the result of a personal search for the picturesque on the part of the artists, who for many months have traversed different sections of the country, for the purpose of securing a series of fresh, vivid, graphic, and thoroughly truthful delineations of American Localities. These Illustrations are of large size; they are engraved in the best manner known to the art, and are printed with the greatest care.

Price of APPLETONS' JOURNAL, Ten Cents per Number, or \$4.00 per annum, in advance

SUBSCRIPTIONS RECEIVED FOR TWELVE OR SIX MONTHS.

Any person procuring Five Yearly Subscriptions, and remitting \$20, will be entitled to a copy for one year gratis.

The postage within the United States, for the JOURNAL, is 20 cents a year, payable yearly, semi-yearly, or quarterly, in advance, at the office where received. Subscriptions from Canada must be accompanied with 20 cents additional, to prepay the U. S. postage. New York City and Brooklyn subscribers should remit 20 cents extra, to prepay for postage and delivery of their numbers.
